

# **ACEvers ACE FrameWorks FPL Verification Utility**

(latest version: 2.3.0 Mar, 2013)

Mar 15, 2013

## **ACEvers.exe – Verification of ACE FrameWorks Utilities Application (ma) Files**

ACEvers.exe is a 32 bit DOS console application and it's latest version is always available for download on the ACESEA website. This executable has two functions.

### **Function 1: Verify a Directory Containing ACE FrameWorks Utilities (ma files)**

The first function is to look in the directory where executed and determine if the ACE applications are current and also what FrameWorks Plus version they are for (currently applications will be for one of 9 sets of utilities. The current supported FWP versions are FWP 3.1.x.x/3.2.x.x, FWP 7.00.00.00 thru 7.00.00.16, FWP 7.00.00.19 & later, FWP 7.1.x.x/7.2.x.x/7.3.x.x, FWP 8.0.x.x, FWP 9.0.x.x, FWP 10.0.x.x, FWP 11.0.x.x & FWP 12.0.x.x. The application will determine old out of date applications, beta applications, test applications, pre-release test applications, newer applications (indicating ACEvers.exe is out of date itself), wrong size (incorrect byte count) applications and missing applications. The application will report to the screen, however the data can be redirected to a file with the DOS redirection symbol (“>”). To utilize this function, run as follows from directory containing ACE ma's:

**ACEvers > ACErpt.txt** (file creation is optional and any valid name can be utilized)

### **Function 2: Create Lists w/ Current Version Number & File Size for ACE FrameWorks Utilities**

The second function will simply list current ACE ma's with file size and version number. ACEvers will list the current utilities for the following released versions: FWP 3.1.x.x/3.2.x.x, FWP 7.00.00.00 thru 7.00.00.16, FWP 7.00.00.19 & later, FWP 7.1.x.x/7.2.x.x/7.3.x.x, FWP 8.0.x.x, FWP 9.0.x.x, FWP 10.0.x.x, FWP 11.0.x.x & FWP 12.0.x.x. To utilize this function, run as follows from any directory:

**ACEvers ? > ACEvers.txt** (file creation is optional and any valid name can be utilized)

### **Current Release Version Data for ACE FrameWorks Utilities & Related Files**

Current release number and version for each application including dates for documentation files, definition files, special files and batch input and/or sample files are contained in the file **ACErel.pdf**.

The latest version of this information is always available for download from the ACESEA website.
